

# THE CLASSIC

## STEP BY STEP

**Step 1:** Place cups/bowls of dips, olives and sun-dried tomatoes in staggered positions towards the edges of the board

**Step 2:** Position you cut cheeses in the centre of the board and place cut kiwi and grapes/cherries to compliment the cheese positions.

**Step 3:** Lay crackers in alternate positions on a slight angle (use apricots or strawberries to prop up) against the edges of the board and/or the cheeses.

**Step 4:** Fold and position meats throughout the board to compliment cheese/cracker locations.

**Step 5:** Use pretzels, dried fruits and strawberries to fill gaps to create an abundant looking graze. Finish with blueberries, decorative fruits and garnishes to complete your graze.
