Our Grazing Tables are designed to be a medium graze for the number of people attending. We pride ourselves in providing an abundant graze. Please be mindful, this is a graze and not designed to be considered a full meal. Should you wish to provide your guests with a more substantial meal, and you will not be having additional food throughout your event (pizzas, paella etc) you may want to consider increasing the size of the graze or adding in hot or cold platters that we have available.
